Size recommendation

We can only provide an indication of what dogs Care2 is specifically suited to. Your dog's height plus 5 cm must not exceed the recommended maximum height given in the table below. The weight of your dog must not exceed the maximum weight shown. Two small dogs can travel in the same cage as long as their combined weight does not exceed the maximum weight of the cage model.

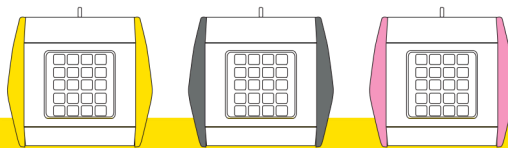

Every happy dog and owner have their own specific needs. Make sure the cage model is appropriate for your dog before making your purchase. Black Hound does not offer refunds for change-of-mind.

Height plus 5 cm equals
